# Shreepad Avhad

## Summary

Senior Frontend Engineer with 10+ years in product engineering, Angular, Typescript, and complex system architecture. Strong in building scalable UI systems, improving performance, enhancing product workflows, and mentoring developers. Experience in leading delivery for cross-functional teams in high-availability, customer-facing products. Looking for a senior frontend opportunity in a modern product-driven environment.

## Experience

**Nice - Specialist Engineer**

Pune

05/2025 - Current

- Led frontend architecture and delivery for critical customer & operations modules impacting millions of users.
- Built and optimised Angular applications with strong focus on performance, accessibility, caching, and reusability.
- Delivered multiple high-impact features end-to-end: requirement shaping with PM, UX collaboration, systems integration with backend.
- Mentored 5–8 developers, established coding standards, and introduced testing frameworks (unit + e2e), reducing bugs by ~35%.
- Drove cross-team initiatives improving workflow efficiency, load times, and rollout processes.
- Owned sprint planning, technical decisions, and stakeholder communication for major product releases.

**Netcore Cloud Pvt Ltd - Engineering Manager**

Mumbai, Maharashtra

07/2022 – 05/2025

- Developed and maintained web applications using Angular and ReactJS, enhancing user engagement by 25%.
- Led development of Netcore's customer retention app in Martech domain, personalizing customer journeys for enterprise clients.
- Built and optimized Angular-based micro-frontend solutions with Zone.js and Redux, improving performance metrics by 30%.
- Integrated Firebase for scalable real-time data storage, reducing API response times by 25%.
- Deployed advanced analytics pipelines with Google Analytics, Microsoft Clarity, and Datadog, increasing marketing campaign effectiveness by 20%.
- Enhanced user onboarding experiences through Hansel, driving a 15% increase in user adoption rates.
- Managed live chat integration using Freshchat, boosting customer support

- **CI/CD Pipeline Automation** – Coursera
- **React and TypeScript Advanced Concepts** – Udemy
- **Management Excellence at Microsoft: Model, Coach, Care**

satisfaction by 18%.

#### **Xoriant Solutions Pvt. Ltd - Senior Software Engineer**

*Pune, IN*

*06/2020 - 08/2022*

##### **Project : Xorpay – Repo DB for Banking Transactions Ltd**

In-house Fintech product for Swift payments.

- Xorpay is a cutting-edge solution designed to streamline payment periodic trades and settlement processes by leveraging robust repository.
- Developed scalable UI solutions for enterprise applications using Angular and TypeScript, improving load times by 25%.
- Designed and implemented API integrations with Firebase, ensuring real-time updates and robust data handling.
- Streamlined analytics reporting with Google Tag Manager, enhancing tracking accuracy across multiple user touchpoints.
- Delivered highly responsive designs for SaaS platforms, aligning with WCAG standards and enhancing accessibility by 30%.

#### **Senior Software Engineer**

*Pune, IN*

*03/2019 - 06/2014*

- Delivered cloud-based applications with responsive UI and seamless API integrations, enhancing user engagement by 30%.
- Participated in technical design and development of microservices, improving system scalability and reducing latency by 20%.
- Worked closely with product managers to align technical solutions with business needs, achieving project deadlines with zero SLA violations.

### **Additional**

- Leadership in product delivery
- Comfortable in hybrid/remote culture
- Open to relocate.
